COMPILER'S PREFACE

This book contains the earliest recorded births in Williams County, Ohio, found in Volume I from 1867 through 1878 of the Probate Records.

An alphabetical listing by surname of both the father and maiden name of the mother has been used to serve as an easy-to-use cross-reference and to eliminate the need for an every-name index.

A birth entry may have two different surname spellings and in some cases, two entirely different surnames. It is therefore necessary to search for all possible spellings including phonetically sounding names.

Information in parentheses is inferred to be the correct surname of the father, mother, or child. This information was not part of the original written record, but was added to facilitate printing and alphabetizing.

The handwriting of the various clerks is often difficult to read and may contribute to misinterpretations. If any question arises, it would be best to personally view the records at the Williams County Records Center located at 107 W. Butler Street, Bryan, Ohio, or on the microfilm at the Bryan Public Library.
